ilā - Beyond Organic

ilā originates from the rolling hills of the English countryside and is dedicated exclusively to body treatments. It envelops guests with its “Beyond Organic” philosophy, nurturing both body and soul. Together with ilā, a **Suvretta x ilā Signature Treatment** has been developed.

For more than a decade, ilā and Suvretta House have cultivated a partnership rooted in a shared philosophy: that true luxury is found in authenticity, purity, and deep connection to nature. ilā was founded on the belief that wellbeing goes far beyond the physical—it is about energy, spirit, and inner harmony. Every product and treatment is crafted with care using the purest natural ingredients, sustainably and ethically sourced, and blended with intention to harness their vibrational energy. This sets ilā apart: we do not simply offer treatments, we create rituals that transform, restore, and awaken on a profound level.

The signature Warming Potali Treatment exemplifies this union. Inspired by ancient Ayurvedic healing traditions, it uses ilā’s unique blend of pine, amber, frankincense, and argan oil to create a ritual of profound restoration.

It is this blend of authenticity, respect for tradition, and commitment to transformation that makes ilā and Suvretta House’s decade-long partnership so special. Together, we have created spa experiences that are not just treatments, but journeys—ones that nurture body, mind, and spirit, and leave guests with a lasting sense of balance, renewal, and peace.

How to enjoy a great sauna experience

Before you enter

Hydrate your body before, during or after your spa experience

Shower—take a pre-session shower and dry off completely

Avoid large meals—do not go on an empty stomach or right after a large meal

Avoid alcohol—never use a sauna or steam room while under the influence of alcohol

During your session

Use a towel—place a towel on the bench to sit or lie on

Session length—start with a shorter session of about 8–10 minutes, especially for first timers, and gradually work your way up to 15 minutes

Change positions slowly—to avoid dizziness, sit up gradually for about 2 minutes before the end of your session

Listen to your body—if you feel lightheaded or uncomfortable, leave the room immediately

After your session

Cool down gradually—after leaving the room, spend up to 10 minutes in the cool air to let your body adjust before taking a cold shower or enter a pool

Rehydrate—drink more water to replenish fluids lost through sweat

Repeat—you can repeat the cycle of a 15 minutes session followed by a cool-down period, but limit your total number of sessions to a maximum of 2–3 per visit

Medical conditions

Avoid the sauna if you have a fever, are pregnant, or have circulatory problems, heart conditions, high or low blood pressure, diabetes, or epilepsy
