Winter perfected at Grand Hotel Suvretta House

The winter season 2025/2026 holds a very special place in the 113-year history of Suvretta House.

In our long tradition, this is only the second time that the hotel has remained closed for a summer and autumn season. With the reopening for the winter season from 5th December 2025 to 6th April 2026, a new era begins. The renovation phase of the past few months is the most extensive restructuring of Suvretta House in the last 20 years—this investment is a promise for the future. The renovation includes the new Suvretta Spa & Wellness area on 3,5 floors with over 4670 m², the expanded Kiddy Club, and a new gaming room with nostalgic and digital gadgets. In addition, two new meeting rooms have been created and an existing meeting room has been enlarged and redesigned. Despite the numerous innovations, our consistency remains the outstanding feature. Enjoy the exclusive amenities of Suvretta House as usual—in prime location with direct access to the Corviglia ski area.

Die Wintersaison 2025/2026 nimmt einen ganz besonderen Stellenwert in der 113-jährigen Geschichte des Suvretta House ein.

In unserer traditionsreichen Historie war es erst das zweite Mal, dass das Hotel für eine Sommer- und Herbstsaison geschlossen blieb. Mit der Wiedereröffnung für die Wintersaison ab 5. Dezember 2025 bis 6. April 2026 beginnt eine neue Ära. Die Umbauphase der zurückliegenden Monate ist die weitreichendste Neustrukturierung des Suvretta House in den vergangenen 20 Jahren – diese Investition ist ein Versprechen in die Zukunft. Die Renovierung umfasst den neuen Suvretta Spa & Wellness Bereich auf 3,5 Etagen mit über 4670 m², den erweiterten Kiddy Club, einen neuen Gaming Room mit nostalgischen und digitalen Gadgets. Zusätzlich wurden zwei neue Meetingräume realisiert und ein bestehender Meetingraum vergrößert und neugestaltet. Neben den zahlreichen Neuerungen bleibt unsere Beständigkeit das herausragende Merkmal. Geniessen Sie wie gewohnt die exklusiven Annehmlichkeiten des Suvretta House – in bester Lage und mit direkter Anbindung an das Skigebiet Corviglia.

New Spa Splendour at 1,800 Metres

Breathe In, Breathe Out—Welcome to the Suvretta Spa, set at an altitude of over 1,800 meters in the heart of the Engadine mountain scenery. Spanning over 4,670 square meters, here you will experience the most sustainable way to achieve true wellbeing.

Under the direction of architectural company Ritter & Schumacher—and together with over 20 construction companies involved in the renovation process—the new Suvretta Spa is a masterpiece of modern architecture. With a keen sense of the hotel’s history and a deep understanding of Alpine aesthetics, the architects closely co-operated with the Candrian family, the board of directors, the general management and a spa expert in creating a sanctuary that preserves the existing and dares to explore new paths at the same time. The spa was hereby given a structure that gently blends into the landscape—transparent, calm and flooded with light. The lines are clear, the materials sophisticated. Wood, natural stone and glass merge thus creating lightness, while generous window fronts bring the Engadine mountains within reach. The impressive 4,670 square metre spa spreads across three levels, each dedicated to a different dimension of well-being.
